### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 17, "type" has been deleted; and

In claim 1, line 12, --device-- has been inserted after "actuator".

2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the claimed combination, in particular, an electromagnetic actuator device that opens a poppet valve against the pressure of the fluid wherein the electromagnetic actuator is housed entirely along an exhaust channel which is parallel to the longitudinal axis of the cylindrical body.

The recitation "the electromagnetic actuator device (22), which is housed entirely along the exhaust channel (17)" has been considered to limit the device having the electromagnetic actuator device being completely encased within the exhaust channel. Applicant's specification, on page 11, lines 8-14, recites, "the actuator device 22 is held in position inside the enlarged section 23 of the exhaust channel..."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
